PROFILE

I'm Alaa, a skilled software engineer specializing in crafting engaging web interfaces using HTML, CSS, and Bootstrap. I adeptly integrate interactivity through JavaScript, ensuring responsiveness across devices, and collaborate seamlessly with cross-functional teams. Constantly evolving, I stay updated on web development trends and technologies for top-tier user experiences. I also have strong proficiency in Microsoft Office programs, particularly Excel and Word, and have developed simple data entry applications using VBA to streamline workflows and enhance productivity.

TECHNICAL SKILLS

Html 5, Css3, JavaScript (ES6), React.JS, Next.Js, Styled-components, axios api, JavaScript-algorithms, Figma, Git, GitHub, Microsoft Excel, Microsoft Word, VBA

Work

Frontend Develop   May. 2024

- **Project Name:**
  - **Car Store**
- **Objective:**
  - **The goal of building a car sales website is to provide a comprehensive platform that connects sellers and buyers, making the process of buying and selling cars fast and efficient. The website aims to simplify the user experience by offering detailed and accurate information about vehicles, price comparisons, secure payment options, and excellent customer support. This helps meet customer needs and increases sales in an innovative and reliable way.**
- **Technologies Employed:**
  HTML5 , CSS3, JavaScript, React.js, Styled-components, Axios API

- **Website Pages:**
  - **Home Page**
  - **About Page**
  - **Sign Up / In**
  - **Services**
